

Yanal Alhasan

Full Stack Software Engineer

Jordan | +962 779576855 | <mailto:yanalthaer33@gmail.com> | [Linkedin](#) | [Github](#) | [Portfolio](#)

Software Engineer with a strong passion for building scalable and high-quality applications. Experienced in developing backend systems using Java and Spring Boot, along with frontend development using Angular. Familiar with event-driven architectures using Apache Kafka and building efficient, reliable systems. A fast learner who adapts quickly to new technologies and environments, always striving to improve and contribute effectively to team success while taking on new challenges.

EDUCATION

- **Bachelor's Degree in Computer Science - Al-Zaytoonah University of Jordan** Oct 2020 — Feb 2025
- Relevant Coursework: Data Structures, OOP, Database Systems, Software Engineering.
 - Grade: Excellent

EXPERIENCE

- **Royal Cyber – SAIB Bank** 06/2025 — Present
- Developing backend services using **Java, Spring Boot, and Maven** for enterprise banking systems.
 - Building frontend components using **Angular** and managing data with **MongoDB**.
 - Developing and integrating **microservices-based systems** within a distributed architecture.
 - Contributing to scalable and secure financial solutions in a collaborative agile team environment.
- **Full-Stack Web Development Trainee | Orange Coding Academy** 01/2025 — 05/2025
- Developed full-stack web applications using **HTML, CSS, JavaScript, Bootstrap, PHP, and Laravel**, with a focus on responsive design and clean UI/UX.
 - Designed and managed **MySQL** databases, optimized queries, and integrated **APIs** for efficient data handling.
 - Applied **SEO** best practices and built real-world projects from scratch within a structured training program.
 - Collaborated in team environments and enhanced communication skills through **English** and soft skills training.
- **Field Training | FintechPath** Sep 2024 — Dec 2024
- Completed backend-focused training program with hands-on experience in building projects and working with **APIs**.
 - Developed a graduation project using **Flutter for mobile applications** with backend integration.

PROJECTS

- **Pro Gym Hub** – A gym and club management platform connecting clubs, trainers, and members, enabling subscription management, progress tracking, and system-wide interaction.
- **Design Hive** – A creative platform for designers to showcase work and interact, built using **HTML, CSS, JavaScript, Laravel, and Ajax** with features like profiles, messaging, likes, and comments.
- **Code for Good Hackathon** – Achieved **4th place among 25+ teams** with “Giving Hands” platform connecting users to charities in Jordan using **HTML, CSS, JavaScript, Bootstrap, and Local Storage**.
- **Bright Future** – A platform supporting individuals with Down syndrome, providing educational content, services, and opportunities, built using **Spring Boot, Java, Maven, and SQL Server**.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, Bootstrap, Angular	Databases: MySQL, SQL Server, MongoDB
Backend: Java, Spring Boot, API Development, Microservices, SOLID Principles	Tools: GitHub, GitLab, Figma, Trello
Concepts: OOP, MVC, Agile, SDLC	

SOFT SKILLS

- Problem-solving and analytical thinking
- Effective communication and teamwork
- Critical thinking and decision-making
- Adaptability to new technologies and environments
- Strong attention to detail

LANGUAGES

- Arabic: Native speaker
- English: Professional working proficiency
